

SEATILE™

The SeaTile® Product Line
Ultimate Extravagance

TILES

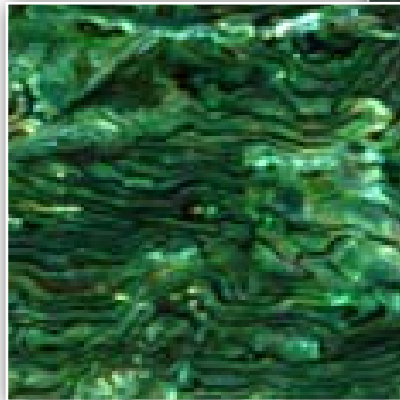

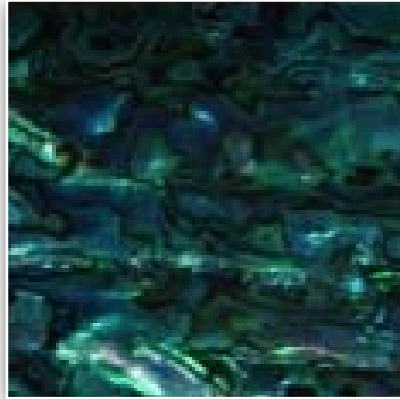

PRODUCT DESCRIPTION: SeaTile™ Tile and Laminates
SeaTile™ is available in four (4) natural shell colors of Abalone-Paua, Abalone Pearl, Black Pearl, White Pearl, and sixteen (16) color tints. These Sea Gems are offered in two distinct thicknesses ¼" (6mm) mounted on shell bisque backing and 1/64" (0.3mm) for skin laminate. There are six (6) standard sizes for the shell bisque tile. The shell laminate skins are uniquely applied by a proprietary process to unglazed tiles or prepared with a thin coating on the reverse. They are each coated with a high gloss heat resistant two-pack polyurethane for protection and stain resistance. The laminates are offered in three (3) standard sizes with or without self adhesive backing. These products are uniform in size and hand made from natural shell which cast opalescence and iridescent shades of color; therefore shading, and/or color variation is a natural and expected occurrence which enhance the quality and appearance of the product. Due to the natural variance of the raw materials used, SeaTile™ products can be expected to differ from sample to actual product.

(200*200*0.3mm)

We support the Leadership in Energy and Environmental Design (LEED) Green Building Rating System, the nationally accepted benchmark for the design, construction, and operation of high-performance green buildings. Matrix Z is committed to ecological sustainability in all our products. These products are composed of real shell, harvested and managed under strict fishing quotas, only the waste shell is used. Product shade, pattern, and color variations are inherent natural characteristic
